

Your observations

As you hear the presentation of your peers, note your observations in the spaces provided on this sheet.

Your observations will provide valuable feedback and will help your peers to revisit their solution.

Note down a question that you would like to ask about the solution.

What could you add to improve the solution?

What do you think is interesting about the solution?

Could the solution help to solve any other real-world issues?

Can you identify any limitations to the solution?
